Bardstown Bourbon Company Distillery Capabilities

Manifesto

Curiosity can lead you to some incredible places. It's what called us to Kentucky in 2016 to build a distillery like no other.

And we haven't stopped innovating since. From our glass rickhouses. To our Napa Valley style tour. We're pushing the boundaries of bourbon like no one has before.

Not because we're particularly fond of bending the rules. But rather to re-imagine what the category could be.

One that's more innovative, transparent and collaborative.

Because if you want to create an entirely new bourbon experience, you can never stop exploring. Never stop discovering.

NEVER STAND STILL.

Our Story

Bardstown Bourbon Company is a trailblazer, pushing boundaries through innovation while honoring the traditional art of making whiskey. Located in the "bourbon capital of the world," Bardstown Bourbon produces the highest-quality Kentucky bourbon and rye whiskey brands. Led by Master Distiller and Kentucky Bourbon Hall of Famer, Steve Nally, and Head Distiller Nick Smith, the company is passionate about making great whiskey and knows that pushing boundaries along the way is the portal to discovery.

Distilling at BBCo

- Over 500 customizable points of production from custom grain types, mashing procedures, yeast strain, distillation procedures, to custom barrel options.
- Largest comprehensive custom whiskey producer in the state of KY, capacity of 150,000+ barrels annually.
- 57+ mash bills produced, over 40 custom distilling partners trust BBC to craft premium-quality products tailored to their exact specifications.
- Home-grown control system built on the Ignition platform – Allows for real-time data collection and versatility

- 48 Fermenters at 13,500 gallons, each
- 2 36" Vendome continuous column stills
- 1 42" Vendome continuous column still
- 18 traditional rickhouses onsite for aging new fill

New Fill at BBCo

How it Works

- Introduction - Let's build your vision together. Share your barrel forecast for the next 3–5 years and your goals. Are you launching a new brand or expanding an existing one? Need supplemental supply to meet growing demand? We're here to help. Our minimum order is 300 barrels per year, with flexible options for smaller quantities using a standard mash bill.
- Desired Recipe(s) – Tell us what you need—we'll bring it to life. Provide your desired mash bill, and we can produce multiple recipes with a minimum of 300 barrels per recipe. A custom recipe includes any formula for which BBC does not currently have the necessary raw materials or does not already produce. Additional costs may apply for customization. Not sure about your recipe? Our expert distillers and blenders are here to guide you in crafting the perfect mash bill for your brand. Let's create something exceptional together!
- The Contract – Once we have agreed on mash bill and quantities, we will draft an agreement.
- One-Time Deposit – A 50% deposit is due 30 days before your first production run, with the balance due at completion. For all future productions, no deposit is required—payment is invoiced upon completion. You'll receive pre- and post-production updates from BBC.
- Production Notification – 30 days before your production is set to begin, you will receive a notification from us, with all of the production details. Once production is complete, you will receive another notification from us.
